

SURGERY PREPARATION INSTRUCTIONS

- **ARRIVAL**
 - Sign in at the surgery center patient drop-off reception desk
 - If you have a fever, recent exposure to COVID-19, please let us know as soon as possible
- **PLEASE BRING**
 - Fill your prescriptions before day of surgery and bring them with you.
- **DO NOT**
 - Eat or drink anything after midnight on the evening prior to surgery
 - This includes ANY food, drinks, water, or alcohol
 - Please leave all valuable items at home
- **WHAT TO WEAR**
 - Wear a button down or zipper front top, and elastic waist pants. Comfortable, loose fitting clothing.
 - We recommend that you also bring TED hose for added comfort during your procedure
- **TRANSPORTATION**
 - Make sure you have a responsible adult to drive you home
 - You cannot drive 48 hours after discharge
- **NIGHT BEFORE SURGERY**
 - Do not wear any deodorant, lotion, conditioner or make-up day of surgery. Please take shower night before surgery using an antibacterial soap such as plain orange dial soap
- **ANESTHESIA CARE**
 - Your anesthesiologist will call you prior to surgery and you will have a chance to discuss any medical conditions or concerns related to anesthesia at this time.
 - Please make sure we have the best phone number to reach you
